St George's Library has access to over 2000 e-books through four online providers: MyiLibrary, DawsonEra, Books@Ovid and Oxford Medicine Online. They can be found via the Library Catalogue or Hunter and accessed from any computer online with an NHS OpenAthens username and password.

This guide will discuss how to access e-books via the classic **Library Catalogue**.

# Reading E-books

The Library has four main suppliers for e-books: DawsonEra; Books@Ovid; MyiLibrary; and Oxford Medicine Online.

The layout of pages will look different depending on the supplier, but all suppliers will have a table of contents or a search box to help you hone in on the information you need:

The screenshot shows the DawsonEra website interface. At the top, there is a navigation bar with 'Home', 'About', 'eBook Catalogue', 'My Account', and 'Help'. A search bar is present with the text 'Title, Author, Keyword'. Below the navigation, the page title is 'Neuromusculoskeletal Examination and Assessment E-Book'. ## FAQ

### Can I print from e-books?

The usual copyright limitations for fair usage apply – i.e. you can print one chapter or up to 5% of a book or similar publication, whichever is the greater.

Each supplier is a little different on the limitations, but once you've reached the limit, you may not be able to print any more.

### Can I download e-books?

Dawsonera allows you to download a whole book for a day/24 hours. You will lose access after this time but you can always go back and download the book again.

For MyiLibrary e-books, you may print or download a maximum of ten pages at a time until the copyright limit is reached, but you can keep the downloaded pages indefinitely.

With Oxford Medicine Online, you may download individual chapters up to the copyright limit, and may keep them indefinitely.

### The e-books aren't displaying properly, what may be the problem?

If you are reading an e-book on your own PC, laptop or device it may depend on which version of Windows /Mac OS you are using, whether the browser is Firefox, Internet Explorer or Safari, and your cookie settings. Try switching to a different browser, or deleting cookies and restarting the browser.

If you are still experiencing problems then there may be an issue with the suppliers service, check the Library Services Alerts <http://www.library.sgul.ac.uk/services-alerts> for updates on service issues.
