Keeping up to date

... without feeling overloaded

Session Summary

Bringing everything to one place

- ▶ Using RSS

Traditional methods for current awareness

- ▶ Typically via email
- ▶ Search platform alert services
- ▶ Journal article alert services
- ▶ Table of Contents page alerts
- ▶ News bulletins

Social media as a current awareness tool

- ▶ Blogs & Twitter
- ▶ Social networking - Facebook, LinkedIn

Slow 👎

eg
News websites
Blogs
Journal ToCs

RSS reader

Fast 👍

News websites
Blogs
Journal ToCs
Any site with **RSS feed**

RSS Feeds

- **‘Really Simple Syndication’ or ‘Rich Site Summary’**
- Collection and delivery of new web content without the need to visit individual websites
- Collect items when published
 - ensures that you are kept up-to-date
 - minimal effort
- Items gathered via RSS can be viewed in an RSS **‘Reader’**

Finding RSS Feeds

- Many sites provide updates using RSS eg
 - Journals – eg for table of contents
 - Database platforms – Ovid; PubMed etc
 - News websites
 - Blogs
- Look out for the RSS icons:

RSS Readers

- Set up and manage news and alerts
- All in one place within the reader
- Free to use (basic version)
- **Feedly**
 - Web & mobile apps (Android, iOS)
- **Netvibes**
 - Web (Responsive – ie adapts to screen size for mobile)
 - Mobile apps – iOS only but out of date
 - Also a personal dashboard
- **Review of readers** <https://www.lifewire.com/top-free-online-rss-readers-3486649> (May 2016)

- **Create account (free)**
 - <http://feedly.com/>
- **Add Content (ie RSS feeds)**
 - Up to 100 feeds
 - Eg feeds from different journals eg for Nature
 - Can use a URL eg <http://www.nature.com/webfeeds/>
 - Or Search for Nature
- **To Organise / Unfollow feeds**
 - Click on profile icon top right
 - Select Organise sources

Help:

- Posts on various features <https://blog.feedly.com/>
- <http://feedly.uservoice.com/knowledgebase>

- **Create account** (Basic option is free)
 - <http://www.netvibes.com/>
- **Reader mode**
- **Add a feed**
 - Eg for JAMA
<http://jamanetwork.com/pages/rss>
- **Add Tab** (in Reader mode, listed bottom left)
 - eg a Journals tab to hold feeds from different journals

- Allows you to aggregate from different sources eg:
 - Blogs, Twitter, FaceBook, News sites
 - Podcasts / Video
 - Any site that provides a 'feed'
- Netvibes help
 - <http://faq.netvibes.com/>

Activity

- Experiment with **Feedly**
- Sign-up with a web-based email account
- Use p 5-6 of your help-sheet to set up feed

- Explore **Netvibes**
- Sign-up with a web-based email account
- Use p 3-4 of your help-sheet to set up a feed

Article Alert services

[Home](#)[Register](#)[Search](#)[Tools](#)[Help](#)[Home](#)[About This Site](#)[About DynaMed Plus](#)

DynaMed Plus and McMaster University's Health Information Research Unit are collaborating to provide you with access to current best evidence from research, tailored to your own health care interests, to support evidence-based clinical decisions.

This service is unique: all articles (from over 110 premier clinical journals) are pre-rated for quality by highly trained research staff, then rated for clinical relevance and interest by at least 3 members of a worldwide panel of practicing physicians. Here's what we offer:

- A searchable database of the best evidence from the medical literature
- An email alerting system
- Links to selected evidence-based resources

Hit Parade: The most often read articles in all disciplines, in the past 30 days

- Use **eTOCS** to receive email notification for new journal issues

The screenshot shows the HighWire website interface. At the top left is the HighWire logo, a red circular icon with radiating lines. To its right is the text 'HighWire'. In the top right corner, there is a dark grey button labeled 'FOR RESEARCHERS'. Below the logo, a navigation breadcrumb reads 'Home » For Researchers » Personalize (My HighWire)'. The main content area is titled 'PERSONALIZE (MY HIGHWIRE)' in red. It features two buttons: 'Sign In' and 'Register', both with red play icons. Below these is a section for 'My Alerts' with a yellow folder icon and the text '[+] eTOCs'. A description follows: 'Table of Contents from current content (TOCs); Notification that an issue has just gone online; Announcements from journal publishers; where available: Tables of contents from future content (FTOCs); Pre-print publication notification.
